

REMARKS/ARGUMENTS

Claims 1-49 are canceled.

Independent claims 50-52 are pending.

Dependent claims 53-67 are pending.

Applicant would like to thank the Examiner in so many ways to accept an international phone call from Japan on August 13th, 2007. The specification is amended as discussed by phone.

Specification

The grammatical errors found in the specification are corrected. Since a numerous amount of errors were corrected, the substitute specification of both marked-up version and clean version are submitted by this amendment.

No new matter is included in the substitute specifications.

Claims

Claims 53, 54, 56, 58, 59, 61, 63, 64, and 66 are amended to correct grammatical errors and eliminate indefinite expressions.

Conclusion

For all of the above reasons, applicant submits that the claims all define patentably over the prior art. Therefore, applicant submits that this application is now in condition for allowance, which action applicant respectfully solicits.

Conditional Request Constructive Assistance

If, for any reason this application is not believed to be in full condition for allowance, applicant respectfully requests the constructive assistance and suggestions of the Examiner pursuant to M.P.E.P. § 2173.02 and § 707.07(j) in order that applicant can place this application in allowable condition as soon as possible and without the need for further proceedings.

Misc.

Applicant has no intent to limit the scope of the claims presented in this amendment by the previous amendments submitted by applicant.

Applicant has no intent to surrender any equivalent of any element included in the claims by any amendment, whether previously or subsequently submitted, of the claims unless expressly and unambiguously stated otherwise in the amendment.

Applicant has no intent to limit the scope or deny the patentability of this application by other applications filed by applicant.

Applicant has no intent to limit the scope or deny the patentability of other applications filed by applicant by this application.
